March 25, 2020

Dear Neighborhood PACE Participant/Caregiver,

As Coronavirus infections spread in Massachusetts, we want to let you know that Neighborhood PACE and the East Boston Neighborhood Health Center are taking many steps to keep participants and staff as safe and healthy as possible, while following federal, state and local guidelines.

We also want to help you access updates and other information about how we are responding to the Coronavirus outbreak and what you can do to stay safe. Below is a list of online resources where you can find more information:

- Visit: www.neighborhoodpace.org. The website provides an overview of the Neighborhood PACE response to the Coronavirus and communication shared to date. Click the link “For information on COVID-19” to view.

- Visit: https://www.mass.gov/coronavirus. The website provides general information on the Coronavirus in Massachusetts and other resources. To sign up for text message alerts from the Governor’s office about the Coronavirus, please text “COVIDMA” to 888-777.

- Visit: https://www.cdc.gov/. This website provides information on Coronavirus in the United States and our government’s response.

For questions about your care OR to report fever or cough symptoms, please contact your PACE Center directly at:

- Winthrop PACE Center: 617-568-6300
- Lewis Mall PACE Center: 617-568-4426
- Revere PACE Center: 617-568-6333
As always, if you have a health emergency, please call 911.

We will continue to update you around any changes to your services, but, in the meantime, please make every effort to stay at home. Again, if you have any questions or need any assistance, please contact your Center.

Sincerely,

Neighborhood PACE Senior Management
